Sponsor-a-Chapter

- There are **159** chapters in The Saga of the Burning of Njál.
- This saga took place in the 10th and the 11th century in the area of Hvolsvöllur, right where the exhibit will be built.
- To this day, modern Icelanders live within the landscape highlighted in the saga, places such as Fljótshlíð, Bergþórshvoll, Hlíðarendi, and the Þríhyrningur and Eyjafjallajökull mountains.
- Within the story, there are iconic places, actions, and text that speak to the heart and the imagination.
- Sponsorship of the chapters of the saga provides an opportunity to highlight and enshrine a part of the saga meaningful to you.
- A great idea for gifts: birthdays, family events, work promotions or retirement, Nordic culture enthusiasts, descendants of Saga characters, etc.

**Sponsorship – each chapter: one time donation of \$1,000 USD.
Donors receive a plaque describing their sponsored chapter.**
